Siemens A56 Clean Charging Port Replacement

This is used to clean the charging port of the phone to get rid of corrosion on the surface.

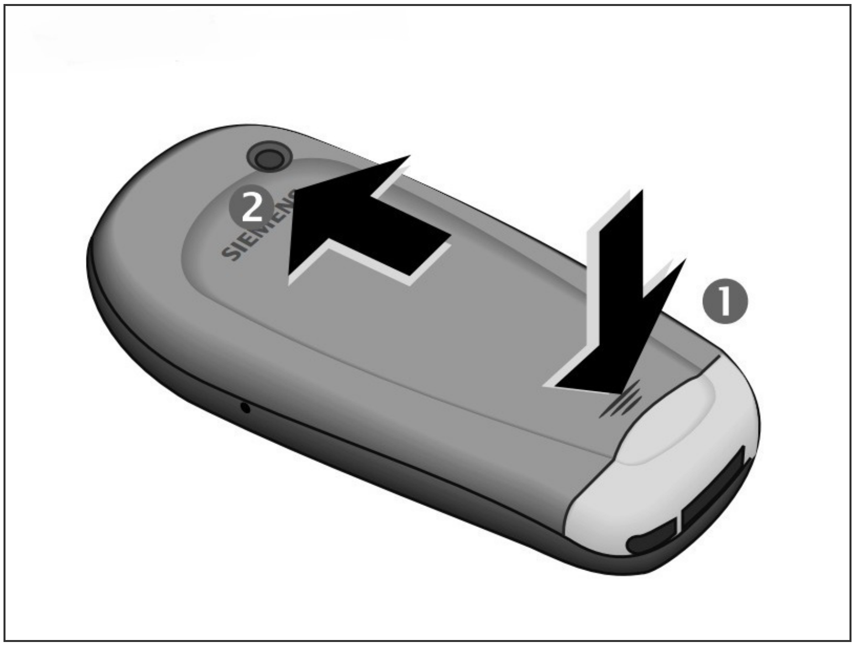

Written By: Lauren Young

TOOLS:

- Detailing Brush (1)

Step 1 — Battery

- Press down on the grooved area firmly in the direction of arrow #1.
- While maintaining the downwards pressure, push the back cover in the direction of arrow #2 until the back cover slides off.

Step 2

⚠ Turn off the phone before removing the battery to avoid damage.

- Press the latch on the battery in the direction of arrow #3.
- Lift battery at the cutout on the side of the phone, then tilt upwards and remove.

ⓘ It may be necessary to use the tip of a fingernail or a plastic lifting tool to remove the battery.
